

Thank you for your inquiry about the Girlie Matchcover Club. To explain the Club, I think it would be best if I gave you a little of its history. In August 1982, two collectors, John Kern and Bob Borton formed the Club with two intentions, 1) to publish an updated and illustrated catalog of known girlie sets and single covers and 2) to put girlie matchcover collectors in contact with each other. They published a 61 page illustrated catalog (now over 500 pages). We publish quarterly illustrated newsletters updating the set and single sections. There are currently over 6000 listed singles. The current cost to join the Club is \$75 (US), which might seem high but, it costs the Club over \$100 to print and ship the catalog. We also collect annual dues of \$15 to cover the cost of printing and mailing of the quarterly updates. An e alpha listing of Girlie singles is available free of charge to all members. If you are interested in joining the Club, please complete the information below and send a check, payable to John Bachochin. Please feel free to contact me if you have any questions.
